

# I Don't Wanna

## Within Temptation

I'm on a road of broken dreams  
And I need to know why  
Seek the truth through lies to be my guide  
I'm in a world of doubt and trust  
Can't deny I lost my way here in this quest, can't lie  
I can't believe what's happening, I don't know what to say  
I can't believe I left to see this day I don't wanna live this way, it haunts my mind  
And I just need to get it straight, stop wasting time  
And I don't wanna live and feel that I can change what's right  
But I know, we'll be living in a lie  
Oh I'll be hanging on the cross  
When I put the nails in  
It's time to choose a road that we believe in  
You say you understand it all, try and smile  
If only I could see it's true somehow I can't believe what's happening  
I don't know what to say  
And what I wouldn't give to change our fate I don't wanna live this way, it haunts my mind  
And I just need to get it straight, stop wasting time  
And I don't wanna live and feel that I can change what's right  
But I know, we'll be living in a lie  
And I've tried so hard to hold on  
But I keep on falling  
And no matter how hard I run  
I just keep returning  
And I'm back to where I started from  
I don't wanna live this way, it haunts my mind  
And I just need to get it straight, stop wasting time  
I don't wanna live this way, it haunts my mind  
And I just need to get it straight, stop wasting time  
And I don't wanna live and feel that I can change what's right  
But I know, we'll be living in a lie
