

# Move Systems

## Georgia

Make the bones in my body break  
That all or nothing so shake  
I want  
I am out Listen to your real song  
I'm looking at my chain I'm a ranger  
We always wanted to be high and courageous  
We're all ninjas away with the chains now  
There's danger on our??  
Look out for the stranger on the train  
Move  
The devil's on my mind now  
Move  
He's all around inside now  
Falling down power devour the system like an anvil of flying from one place to place  
Move  
Make the bones of my body break  
Move  
That all or nothing so shake  
Move  
The inner taste is so strong  
Move  
And listen to a real song  
System's always lie about who we are  
And we won't belong  
So it won't be long  
These systems always lie about who we are  
So we won't belong  
It won't be long  
It won't be long  
I went to meet Sheila  
She was a diva  
Se told me that my sister never did appeal to her  
So down the banks of the river  
We sit there casting at the trains that we share with the crew  
And they're messing with the view??  
We pulled down the system  
We laughed at the system  
Now no one gonna tells us that we ain't gonna blow the system  
Now no one gonna tells us that we ain't gonna  
These system's always lie about who we are  
And we won't belong  
So it won't be long

Systems always lie about who we are  
So we won't belong  
It won't be long  
It won't be long  
Make the bones of my body break  
Move  
That all or nothing so shake  
Move  
The inner taste is so strong  
Move  
And listen to a real song  
System's always lie  
And we won't belong  
So it won't be long  
These systems always lie about who we are  
So we won't belong  
It won't be long  
It won't be long  
And listen to a real song  
I am out
