

# When the Curtain Falls

Greta Van Fleet

Well, you feel pretty now  
Now I'm your biggest fan  
I saw your picture and it's the best  
To finally skin the land Camera likes some action  
Words you know so well  
You're, in and out of fashion  
You know, you would've fell When the curtain falls  
Walk the hollow walls, babe  
Once are fairly dull  
Girl you light it all  
Well, love you in that  
Can I have your honored craft  
It's so funny at the show, never think baby laugh  
Woman crawling cocktails  
You cut and go your wings  
Leo said they loved you  
Didn't they darling?  
Well, taking all your things When the curtain falls  
Walk the hollow walls, babe  
Once are fairly dull  
Girl you light it all Well, listen darling  
It's been  
What can I say, you've got it all  
You're one with me,  
But I'm not gonna lie to you  
You can choose a little word, well  
When the curtain falls  
Walk the hollow walls, babe  
Walk the valley, doll  
Now you light it all Goodbye baby, goodbye
