

Wickedest Style (feat. Iggy Azalea)

Sean Paul

Baby girl just give em the wickedest style
Give em the wickedest style
Put it down, let it down, let them see you glow fire
Give em the wickedest style
Give em the wickedest style
Drop to the floor, I got the money empire
Give em the wickedest style
Give em the wickedest style
Wind for the world, you know you're well versatile
Give em the wickedest style
Give em the wickedest style
Getting money straight, the money pile up
(
Because if we'll smoke two pon repeater
Poppin in 2, does em buckle up me feet
Hennessey get out the break bomb, taking out the D cup
Money on the clique touch the street well made up
Run it up, we link up, put the drink
I did done stink up
And now my friend that bring come and sip pon the big cup
Selector posed to dance on the block then I raise up
Give me the microphone, now let me sing something, girl
(Pre-)
You should know
The way you bumpin it,
I feel it now, you're feelin it up
Drop it low
Show me what you're workin with, girl you show me, we burn it up
Take it slow
Girl I'm on the grind, fightin
You know you should be workin it up
What you do
Give me the ting girl cuz I just can't help it()
Now give em the wickedest style
Give em the wickedest style
Put it down, let it down, let them see you glow fire
Give em the wickedest style
Give em the wickedest style
Drop to the floor, I got the money empire
Give em the wickedest style
Give em the wickedest style
Wind for the world, you know you're well versatile

Give em the wickedest style
 Give em the wickedest style
 Getting money straight, the money pile up()
 Hood boy watch the grind cuz you push pon me wips
 I know you saw in it love from that look pon yo face
 If I leave it there for you could you pick it up, pick it up
 Got a hell of name now let me know if you big enough
 Turnin high life, such a high price but we can't do this all night
 Everything be alright, that's what we said
 So we're richer now, super wicked style, we get wild
 If it's right how we does it now, how you like it now?
 Money talks if you were down and did not mention my name
 Ain't competition within me and they make the same
 Need a Benz or a better just to get in my line
 Flyin private, we get at it til they see me on the plane
 Talkin fly right til we turn night into day
 We could take time and never waste time cuz I don't play
 So original, super wicked style, super wicked
 I can give it to you but tell me what you thought, tell me, well tell me(Pre-)
 You should know
 The way you bumpin it,
 I feel it now, you're feelin it up
 Drop it low
 Show me what you're workin with, girl you show me, we burn it up
 Take it slow
 Girl I'm on the grind, fightin
 You know you should be workin it up
 What you do
 Give me the ting girl cuz I just can't help it()
