

Find Me (feat. Birdy)

Sigma

We said goodbye
That's what you told me once
So many times we've made our peace
But this is love, I'll never give you up
But now your love has come home to me Like a river, always running
I keep losing you
Like a fire, always burning
I'll be here for you
If you're ready, I'll deserve you
I'll be waiting, come find me
If you're certain for forever
I'll be waiting, come find me
I see you, you're in the darkness
Finding life right where your heart is
If you're ready, I'll deserve you
I'll be waiting, come find me Come find me
Come find me
I see you, you're in the darkness
Finding life right where your heart is
If you're ready, I'll deserve you
I'll be waiting, come find me
If your star waits
That's what you told me once
But tears they come and go
This is us, I'll never get enough
It's taking losing you to know If you're ready, I'll deserve you
I'll be waiting, come find me
If you're certain for forever
I'll be waiting, come find me
I see you, you're in the darkness
Finding life right where your heart is
If you're ready (if you're ready)
I'll deserve you (I'll deserve you)
I'll be waiting, come find me Come find me
Come find me I want to meet but never leave now
I want to meet but never leave now I see you, you're in the darkness
Finding life right where your heart is
If you're ready, I'll deserve you
I'll be waiting, come find me Come find me
If you're ready, I'll deserve you
I'll be waiting, come find me If you're ready, I'll deserve you
I'll be waiting, come find me
