

Hope

Fat Freddy's Drop

Let your love flow down
Let it fall to the ground
Therein lies the roots
Reaching for the street
All I wanna do... Is Keep on reaching through
Keep on reaching through.
To the river wide and strong
It won't take long
We could all go together
If we just hold on
A new generation
And a brand new age
I wanna fall like a rake
On burning pages
Rise from the ashes
Like a phoenix son
Learning to flow
Searching for love
You know that I can't get enough of
Get enough of that hope.
Hope.
Hope.
I wanna show you
Hope for a generation
Hope for a generation
I wanna show you.
