

Even a Broken Heart Beats

Sister C

If could have a conversation with my heart
Before men comes and tries to tare us apart

Sit down and talk about

What we really want

Cause we never seem to see how to act
You stayed behind when I said goodbye

The feel is right

But it might be wrong

Uh-Uh It's a risk we're whiling to take
Uh-Uh Could be forever or a big mistake

If you fall i'll go down with you

When you long for him I do too

Even if we end up breaking

We can take it and we will make it

I still feel you keeping rhythm

Strong and deep inside of me

Walk on and on and on and on

Cause even a broken heart beats

I can see the danger in the way he smiles
Got a kiss like the devil and it drives me wild

If you're gonna play with fire

Get ready for the burn

Uh-Uh It's a risk we're whiling to take
Uh-Uh Could be forever or a big mistake

If you fall i'll go down with you

When you long for him I do too

Even if we end up breaking

We can take it and we will make it

I still feel you keeping rhythm

Strong and deep inside of me

Walk on and on and on and on

Cause even a broken heart beats

Uh-Uh-Uh There's a change it could crash

Uh-Uh-Uh-Uh-Uh

Hope the water feets lasts

If you fall i'll go down with you

When you long for him I do too

Even if we end up breaking

We can take it and we will make it

I still feel you keeping rhythm

Strong and deep inside of me

Walk on and on and on and on

Cause even a broken heart beats
Even a broken heart beats
