

Regenerate

Fear Factory

Remove all the damage
Material debris
Remove scar tissue
Decayed and diseased
Establish a connection
Matter to the mind
My self replication
Run for your lifeLook in my eyes
Look in my eyes
It's not over
I will survive
I will survive
I regenerated now
I've finally found new ground
Breathing new life now
I will regenerateReplace for enhancement
Destroy permanence
Born again and faithless
Shatter the resilient
I have got the power
To effect a change
Amplify my body
Don't fade awayLook in my eyes
Look in my eyes
It's not over
I will survive
I will survive
I regenerated now
I've finally found new ground
Breathing new life now
I will regenerateYou can't kill me!I regenerated now
I've finally found new ground
Breathing new life now
I will regenerate
New life today
