## Regenerate

## **Fear Factory**

Remove all the damage

Material debris

Remove scar tissue

Decayed and diseased

Establish a connection

Matter to the mind

My self replication

Run for your lifeLook in my eyes

Look in my eyes

It's not over

I will survive

I will survive

I regenerated now

I've finally found new ground

Breathing new life now

I will regenerateReplace for enhancement

Destroy permanence

Born again and faithless

Shatter the resilient

I have got the power

To effect a change

Amplify my body

Don't fade awayLook in my eyes

Look in my eyes

It's not over

I will survive

I will survive

I regenerated now

I've finally found new ground

Breathing new life now

I will regenerateYou can't kill me!I regenerated now

I've finally found new ground

Breathing new life now

I will regenerate

New life today
