

A Heart With Your Name On It

Billy Ray Cyrus

Billy Ray Cyrus
Girl I've got somethin' just a waitin' for you
That's gonna make you smile and never leave you blue
I've carried it around waiting for the right time
To give it to you and make you mine
Just give it a chance and you're gonna want it
'Cause I've got a heart with your name on it
It beats strong and it beats true
And you'll love the love that it's gonna give you
You might as well take it, you already own it
I've got a heart with your name on it
I've got a heart with your name on it
I could feel the heat when I look in your eyes
You were carving your name with a burning fire
Now I'm a brand new man, branded with the thought of you
Holding me tight the whole night through
All you've gotta do is say that you want it
'Cause I've got a heart with your name on it
It beats strong, it beats true
And you'll love the love that it's gonna give you
You might as well take it you already own it
I've got a heart with your name on it
Instrumental
Well...
It beats strong and it beats true
And you'll love the love that it's gonna give you
You might as well take it, you already own it
I've got a heart with your name on it
I've got a heart with your name on it
I've got a heart with your name on it...
