

Spider Fingers

Bruce Hornsby

So nice to be here
With all you good people
Is anybody listening
What we're doing tonight Could you give us a chance
While you hit the sauce
I might try a little flash up here
Just to get ourselves across (Hit it) Let the spirit linger
Well-uh, get up (Hey)
And do the spider fingers
Check the spider fingers (Check it!)
I could show you on a table
I could show you on a chair
It's best shown on the black and whites
I know I could take you there It's just a little hand trick
A little prestidigitation
Better get out your Hanon
A little practice and repetition Well, we better do something
Before they tell us to get lost
Sometimes you've just got to repeat yourself
Just to get your point across (Hit it) Let the spirit linger (Hey)
Well-uh, get up (Hey)
Do the spider fingers (Okay)
Oh, the spider fingers (Spider)
Do the spider fingers A little spider tongue How long will we be here
Well, babe I just don't know
Depends on fate, the luck of the draw
Or maybe a little flashy show (Hit it) Let the spirit linger
Well-uh, get up (Hey)
And do the spider fingers (Oh, hey, hey)
Oh, the spider fingers (Spider fingers)
