

# Spider Fingers

Bruce Hornsby

So nice to be here  
With all you good people  
Is anybody listening  
What we're doing tonight Could you give us a chance  
While you hit the sauce  
I might try a little flash up here  
Just to get ourselves across (Hit it) Let the spirit linger  
Well-uh, get up (Hey)  
And do the spider fingers  
Check the spider fingers (Check it!)  
I could show you on a table  
I could show you on a chair  
It's best shown on the black and whites  
I know I could take you there It's just a little hand trick  
A little prestidigitation  
Better get out your Hanon  
A little practice and repetition Well, we better do something  
Before they tell us to get lost  
Sometimes you've just got to repeat yourself  
Just to get your point across (Hit it) Let the spirit linger (Hey)  
Well-uh, get up (Hey)  
Do the spider fingers (Okay)  
Oh, the spider fingers (Spider)  
Do the spider fingers A little spider tongue How long will we be here  
Well, babe I just don't know  
Depends on fate, the luck of the draw  
Or maybe a little flashy show (Hit it) Let the spirit linger  
Well-uh, get up (Hey)  
And do the spider fingers (Oh, hey, hey)  
Oh, the spider fingers (Spider fingers)
