We will survive
Eruptions color my sky
But wait till I bore 10 million steamy souls We will survive even
Even if their is nothing inside
But wait till I own 10 million screaming souls You? ve been denied all of your life
You? ve been denied all of your life
Whose left nobody? s right
Fed despair
Whose right nobody? s left
Fed despair
We will survive
We will survive
We will survive
We will survive
