

# Where I First Found You

## Forest Blakk

Let's draw a line between us  
Paint a map back to the start  
Leaving footprints to remind us Where you go I'll go  
And if you fall, I'll fall And if the sky grows heavy  
Wrap your arms around me tight  
We'll be alright, yeah  
If the ground gives way beneath us  
If we should fall to pieces  
Find me where I first found you  
If our signal ever faded  
Point me right back to your heart  
And the moment when you said it So where you go I'll go  
And if you fall, I'll fall And if the sky grows heavy  
Wrap your arms around me tight  
We'll be alright, yeah  
If the ground gives way beneath us  
If we should fall to pieces  
Find me where I first found you, mhm And if the sky grows heavy  
Wrap your arms around me tight  
We'll be alright  
And if the sky grows heavy  
Wrap your arms around me tight  
We'll be al-, we'll be alright  
If the ground gives way beneath us  
If we should fall to pieces  
Find, you can find  
Find me where I first found you
