

# Heaven (feat. Daley)

Nelly

Said it feel  
It feels like heaven  
()Take it to the heaven, take it to the floor  
This feeling heaven-sent  
Every single me and you woke  
10 bottles and up, here we living up  
Fly but the clouds you'll never get stuck  
And you can take your take your time, my intentions you'll handle  
So said do you see? And got me seeing stars tangled  
And I'm going for the Superbowl field goal  
I know you feeling it right, hot looking tonight  
It ain't no stopping when we popping, girlfriend go in  
Yea we got high all because she touching and rubbing  
Plus above it I know you gotta be sick  
But your light shine baby every time okay  
It feels (it feels good)  
It feels like heaven  
And I don't wanna go there girl so soonIt feels like heaven!()  
Don't hold your breath, don't listen  
Feel like you going through hell - it's just a visit  
Feel everything you going through you're on your own  
Take a shot of the silver shot, thank God for Patrone  
Thank God for the millionaires  
You can separate the boys from the million now 'cus you see your virtueEven though we wasn't  
gonna work your body  
Meet me up and down to the town  
Baby I just wanna feel right here right now  
One time, one choice  
Baby it's gonna fall  
I hope to God never let you go  
It feels like  
(  
It feels (it feels good)  
It feels like heaven  
And I don't wanna go there girl so soon  
It feels like heaven!  
Sunshine every time we move  
It feels like heaven!  
Go angel and our love will never leave and it will live onIt feels like (go ahead still spit it so we  
hit it on time)It feels like heaven  
No breaking lights, baby go hard it's fine  
Never hate the ladies and make the babies

Girl you could be anything you want  
And you deserve it, I know you're worth it  
Never ever let the feeling go  
Never hate the ladies and make the babies  
Girl you could be anything you want  
Now put your hands up high, 'cus you're going for a ride  
As the feeling of love keep your feelings inside  
(  
It feels (it feels good) It feels like heaven  
And I don't wanna go there girl so soon It feels like heaven!  
It feels like  
It feels... it feels like (No breaking lights, baby go hard it's fine?)
