

Stop Me from Falling (Cerrone Remix)

Kylie Minogue

Somehow
We've always been together
But never got together
I've never felt the pressure
Till now
There's something in the air
I'm hearing you just there
I can't pretend that I don't care(Yeah)
One day I might get it right
Am I ready for tonight?
(Yeah)
Caution, caution, amber lights
Just can't get you off my mind
Don't know, I don't know where
But we're becoming more than friends
Getting closer to the edge
Stop me from falling
Should've seen the warning signs
Now I'm running out of time
I don't wanna cross the line
Stop me from fallingFor you
For you
Stop me from falling
For you
For you
Stop me from falling
One risk
From lying on your shoulder
When I was feeling colder
And now I can't get over
One kiss
A dangerous situation
I'm lost in hesitation
My heart's a little shaken(Yeah)
One day I might get it right
Am I ready for tonight?
(Yeah)
Caution, caution, amber lights
Just can't get you off my mindDon't know, I don't know where
But we're becoming more than friends
Getting closer to the edge
Stop me from falling

Should've seen the warning signs
Now I'm running out of time
I don't wanna cross the line
Stop me from falling For you
For you
Stop me from falling
For you
For you
Stop me from falling Don't know, I don't know where
But we're becoming more than friends
Getting closer to the edge
Stop me from falling
Should've seen the warning signs
Now I'm running out of time
I don't wanna cross the line
Stop me from falling For you
For you
Stop me from falling
For you
For you
Stop me from falling
