

# Lies (Otto Knows Remix)

## BURNS

You've been cheatin' and tellin' me lies  
You've been creepin' while I'm sleepin' at night  
You've been chasin' every girl in sight  
You've been messin' around, now I'm down,  
It's over now Baby please forgive me  
For what I'm about to say  
And what I'm about to do  
I can't take no more  
I know you ain't been true  
That's why I'm telling you You've been cheatin' and tellin' me lies  
You've been creepin' while I'm sleepin' at night  
You've been chasin' every girl in sight  
You've been messin' around, now I'm down,  
It's over now  
Baby please forgive me  
For what I'm about to say  
And what I'm about to do  
I can't take no more  
I know you ain't been true  
That's why I'm telling you All I see is faces I don't know  
All I see is places we never go  
All I see is laughter in their eyes  
Cause you keep telling me, telling me lies  
[X2] You've been cheatin' and tellin' me lies  
You've been creepin' while I'm sleepin' at night  
You've been chasin' every girl in sight  
You've been messin' around, now I'm down,  
It's over now  
Baby please forgive me  
For what I'm about to say  
And what I'm about to do  
I can't take no more  
I know you ain't been true  
That's why I'm telling you
