

Like a Friend (feat. Jan Johnston)

Paul van Dyk

There's anguish despair
And we don't feel a thing
How can I make you think?
How can I make you change... lives? Deliver new dreams
Give back a child and smile
Sending a wind of change
To free another's... world Stop turning over
It won't go away
If we don't do anything
It will always stay
But there's a way (mmmmm there's a way)
(To)
Be aware of the world
And be true to your conscience
Be aware of its needs
Like a friend you can hold them Be aware of the world
And be true to your conscience
Be aware of its needs
Have a care, have a conscience There's anguish despair
And we don't feel a thing
How can I make you think?
How can I make you change? (How can I make you change?) Deliver new dreams
Give back a child and smile
Sending a wind of change
To free another's, free another's world
What I'm going to tell you
You don't want hear
It's a million miles away
And a million tears
And a million tears
(To)
