

# Sunshine Coolin'

## The Asteroids Galaxy Tour

The sky is blue the end is near  
A wave of heat is running clear  
Walk this way come on inside  
Houses chill stay a while Your my one who make me laugh  
Making out in the aftermath  
Coolin' down the sun for me  
Coolin' down to set me free Ohhhh  
Good times roll we're here to stay  
We hide away on a sunny day  
Bad times come but we're not there  
We're in the shade sayin' we don't care We don't care (x3) Boy it's good we end it here  
No more sweat there's no more fear  
Escape the heat, escape the meat  
Gaga folk surrounding me Stay inside or stay in bed  
You call it lazy but we're not dead  
Coolin' down the sun for me  
Coolin' down to set me free Ohhhh  
Good times roll we're here to stay  
We hide away on a sunny day  
Bad times come but we're not there  
We're in the shade sayin' we don't care We don't care (x3) Oh oh no
