

# Cut Me Deep (feat. MAGIC!)

Shakira

Why do you say things if you do not mean them?  
Why do you fill up my wounds with your dirt?  
Bullets are flying, this time I can't shield them  
Santa Maria, I know how it hurts 'Cause you cut me deep  
Your words are like steel  
And now I can't sleep  
'Cause I'll never heal Why do you make me believe we are spirits?  
Molded together to conquer this Earth (molded together)  
Climb up the mountains so high we can see them  
Then send me to plummet with savaging words 'Cause you cut me deep (you cut me deep, so  
deep, so deep)  
Your words are like steel (now every word is sharp like steel)  
And now I can't sleep  
'Cause I'll never heal  
I am covered in scars  
Like a rose without thorns  
My defenses are gone  
No one's out there to warn  
If there's love in your heart  
Let me leave now in peace  
You know you took it too far 'Cause you cut me deep  
Your words are like steel  
And now I can't sleep  
'Cause I'll never heal You cut me deep  
You cut me so deep  
You cut me deep  
You cut me so deep  
You cut me deep  
You cut me so deep (so, so)  
You cut me deep  
You cut me so, so (so, so) You cut me deep  
You cut me so deep  
You cut me deep  
You cut me so (so, so)
