

# Gooey

## Glass Animals

I come close  
Let me show you everything I know  
The jungle slang  
Spinning around my head and I stare  
While my naked fool  
Fresh out of an icky gooey womb  
A woozy youth  
Dope so good, a silky smooth perfume  
Ride my little pooh bear, wanna take a chance  
Wanna sip this smooth air, kick it in the sand  
I'd say I told you so but you just gonna cry  
You just wanna know those peanut butter vibes  
Mind my simple song, this ain't gonna work  
Mind my wicked words and tipsy topsy slurs  
I can't take this place, I can't take this place  
I just wanna go where I can get some space  
Truth be told  
I've been here, I've done this all before  
I tell you go gloom  
I cut it up and puff it into bloom  
Ride my little pooh bear, wanna take a chance  
Wanna sip this smooth air, kick it in the sand  
I'd say I told you so but you just gonna cry  
You just wanna know those peanut butter vibes  
Mind my simple song, this ain't gonna work  
Mind my wicked words and tipsy topsy smirk  
I can't take this place, I can't take this place  
I just wanna go where I can get some space  
Hold my hand, flow back to the summer time  
Tangled in the willows, now comes the tide  
How can I believe you, how can I be nice  
Tripping around the tree stumps in your summer smile  
Ride my little pooh bear, wanna take a chance  
Wanna sip this smooth air, kick it in the sand  
I'd say I told you so but you just gonna cry  
You just wanna know those peanut butter vibes  
Mind my simple song, this ain't gonna work  
Mind my wicked words and tipsy topsy smirk  
I can't take this place, I can't take this place  
I just wanna go where I can get some space
