

# Rockets

Ella Henderson

Oh nobody knows but you  
How to make me come alive  
And no, my heart explodes  
Kaboom, like rockets in the sky I'm some kind of mind reader  
Cause you know all the things you say  
You bright up my darkest days, days  
I'm not afraid to say that I need you  
And I know it's something insane  
But boy I never felt this way, way 3, 2, 1 look where we are  
Got me launching into the stars  
Oh, let's go  
And no, nobody knows but you  
How to make me come alive  
And no, my heart explodes  
Kaboom, like rockets in the sky Hit me like a crash of thunder  
Yeah you knock me out my feet  
Promise that you'll never leave, leave, yeah  
And this must be a spell I'm under  
Cause if I'm dreaming let me sleep  
Cause I don't ever want to break free, no 3, 2, 1 look where we are  
Got me launching into the stars  
Wo-oh, let's go And no, nobody knows but you  
How to make me come alive  
And no, my heart explodes  
Kaboom, like rockets in the sky  
Like rockets, can't stop us  
Our love is hotter than flames  
We're shooting over this place, yeah  
Like rockets, we progress  
And I know we won't ever change  
Cause we're shooting over this place And no, nobody knows but you  
How to make me come alive  
And no, my heart explodes  
Kaboom, like rockets in the sky (like rockets in the sky)  
(like rockets in the sky)
