

# Walk Away

## Five Finger Death Punch

I'm sorry for the demon I've become  
You should be sorry for the angel you are not  
I apologize for the cruel things that I did  
But I don't regret one single word I said Just walk away  
Make it easy on yourself  
Just walk away  
Please release me from this hell  
Just walk away  
There's just nothing left to feel  
Just walk away  
Pretend that none of this is real  
Can you forgive me if I told you that I cared?  
Would you be sorry if I swore that I'd be there?  
Please forgive me for laughing when you fall  
I'm so sorry but I never cared at all Just walk away  
Make it easy on yourself  
Just walk away  
Please release me from this hell  
Just walk away  
There's just nothing left to feel  
Just walk away  
Pretend that none of this is, none of this is  
Just walk away  
Make it easy on us both  
Just walk away  
There was never any hope  
Just walk away  
You already know the deal  
Just walk away

Pretend that none of this is was, none of this was real
