

# Scream With Me

## Mudvayne

Ever feel like dying?  
Ever feel alone?  
Ever feel like crying?  
Lost child in a store  
Ever feel life pushing?  
Shoving you away  
Ever feel like breaking down?  
Funeral in the rain  
Feel like slipping away  
Stand in the corner and scream with me  
A body full of empty  
A head that's full of rage - Better believe it  
Stand in the closet and scream with me  
A mind that's like a fire  
Drivin by the pain - Better believe it  
Ever feel like lying?  
Down inside a grave  
Listen to the eulogy  
A pyre of the hay  
Ever danced beside the devil?  
Taste the barrel of a gauge  
Ever pulled the trigger?  
The light begins to fade  
Feel life slipping away  
Stand in the corner and scream with me  
A body full of empty  
A head that's full of rage - Better believe it,  
Stand in the closet and scream with me  
A mind that's like a fire  
Drivin by the pain - Better believe it  
I've asked you for forgiveness  
I've asked you for your grace  
I've asked you for your blessing  
I've asked that I be saved  
Stand in the corner and scream with me  
A body full of empty  
A head that's full of rage - Better believe it  
Stand in the corner and scream with me  
A body full of empty  
A head that's full of rage - Better believe it,  
Stand in the closet and scream with me  
A mind that's like a fire  
Drivin by the pain - Better believe it  
Stand in the corner and scream with me  
A body full of empty  
A head that's full of rage - Better believe it  
Drivin by the pain - Better believe it
