

# In the Air (feat. Keri Hilson)

## Chipmunk

In the air, in the air  
Put your lights up in the air  
In this moment, come together  
Be as one without a care In the air, in the air  
Put your lights up in the air  
In this moment, come together  
Be as one without a care What is everybody afraid of me for  
See the age I came through, I weathered the storm  
I'm playing with thunder and firing myself  
They making it rain? We making it hail You wanna visit fire? I'll throw 'em to hell  
They can't see me, but they feel me, I'm basically Braille  
You're looking at the holy grail  
And this is what I wanna make, I don't care if it sells  
Put them lighters up  
(Come on, put them in the air)  
Put them lighters up  
(Everybody, everywhere) Put them lighters up  
(High where I can see)  
Put them lighters up  
So you can shine like me In the air, in the air  
Put your lights up in the air  
In this moment, come together  
Be as one without a care In the air, in the air  
Put your lights up in the air  
In this moment, come together  
Be as one without a care  
Why you acting like you ain't heard of me?  
This is sick to you, it's a to me  
And everybody's getting bills, now  
'Til every freaking label refunding me Yeah, you can't replicate my style  
I'm on my high horse, no realm  
And you're looking at the holy grail  
And this is what I wanna make, I don't care if it sells Put them lighters up  
(Come on, put them in the air)  
Put them lighters up  
(Everybody, everywhere) Put them lighters up  
(High where I can see)  
Put them lighters up  
So you can shine like me In the air, in the air  
Put your lights up in the air  
In this moment, come together  
Be as one without a care In the air, in the air

Put your lights up in the air  
In this moment, come together  
Be as one without a care Yeah, this is straight up, you can't eff with me music  
Never chose this, it's destiny music  
This ain't lover music, it's confidence crushing music  
There ain't too many that I'm cool with I'm just tryna take it where no one else has took it  
Yes, I am a novelty, hence all the bookings  
Never touched a drop, but they smell what I'm cooking  
I did it without looking whilst you can't get a look at you Put them lighters up  
(Come on, put them in the air)  
Put them lighters up  
(Everybody, everywhere) Put them lighters up  
(High where I can see)  
Put them lighters up  
So you can shine like me In the air, in the air  
Put your lights up in the air  
In this moment, come together  
Be as one without a care In the air, in the air  
Put your lights up in the air  
In this moment, come together  
Be as one without a care In the air, in the air  
Put your lights up in the air  
In this moment, come together  
Be as one without a care In the air, in the air  
Put your lights up in the air  
In this moment, come together  
Be as one without a care In the air, in the air  
Put your lights up in the air  
Be as one without a care In the air, in the air
