

# Uneducated Democracy

Serj Tankian

When doors of hope open  
To illuminate silence  
Release us to the Utopians  
Let go of your resistanceAs sex scandals dictate  
The winding road of realpolitik  
The bully runs from his corner  
Images rule through the media  
Hungry hunger further  
The hungry hunger furtherThanks for allowing us to fuck you  
Behind closed doors  
Closed minds  
Attract the feudalism  
Commercial over unison  
Thanks for allowing us to fuck you  
Behind closed doors  
Closed minds  
Attract the feudalism  
Commercial over unisonThe final revolution  
Will illuminate silence  
Release us to the Utopians  
Let go, let goIn dire need of reason  
In a truly deaf nation  
In dire need of reason  
In a truly deaf nation  
Without an education there is no real democracy  
Without an education there is only autocracy(I'll be sittin' on my porch and doing nothin' all  
day. mmh hmm)  
Just you  
Sitting aloneOpen your eyes  
Open your mouths  
Close your hands  
And make a fist  
Down with the system  
As we lay helpless against the machine  
Open your eyes  
Open your mouths  
Close your hands  
And make a fist  
Down with the system  
As we lay helpless against the machineOpen your eyes  
Open your mouths  
Close your hands

And make a fist  
Down with the system  
As we lay helpless against the machine  
As sex scandals dictate  
The winding road of realpolitik  
The bully runs from his corner  
Images rule through the media  
Hungry hunger further  
The hungry hunger further  
Thanks for allowing us to fuck you  
Behind closed doors  
Closed minds  
Attract the feudalism  
Commercial over unison  
The final revolution  
Will illuminate silence  
Release us to the Utopians  
Let go of your resistance  
The final revolution  
Will illuminate silence  
Release us to the Utopians  
Let go, let go  
In dire need of reason  
In a truly deaf nation  
In dire need of reason  
In a truly deaf nation  
Without an education there is no real democracy  
Without an education there is only autocracy  
In dire need of reason  
In a truly deaf nation  
In dire need of reason  
In a truly deaf nation  
Without an education there is no real democracy  
Without an education there is only autocracy
