## **Paper Boy**

## **Roy Orbison**

I walk down to the blue side of town Where there's no happiness, no joy Down at the end of a long dark street I saw a little paper boyPaper boy paper boy I've got bad news for you Paper boy paper boy Me and my baby are through She was my love my one and only I feel so bad I'm oh so lonely I'm looking for my love I've got my own headlines for today They've been the same since she went away "One dark haired angel disappears Seems like She's been gone a million years"Paper boy Paper boy So long goodbye Paper boy paper boy Thanks for listening while I cryI feel a little better now that someone knows But I will go on looking forever, I suppose I'm looking for my love Extra extra read all about it My baby's gone and I wanna shout it I'm looking for my love I'm looking for my love I'm looking for my love I'm looking for my love...
