

# Quiet

Jason Mraz

Every time I go home  
There's another cell phone tower  
Construction getting louder  
Paving over yesterdays  
You and I  
We will try to find the side of it that's pretty  
While our town becomes a city  
We won't let it be erased  
Empires rise, empires fall  
Will you be my constant through it all?  
I will hold your hand and  
Watch the world spin madly 'round this life, we're  
in  
Everything goes quiet when it's you, I'm with  
Everything goes quiet when it's you, I'm with  
Every once in a while  
You know I get these real bad headaches  
Worried about the mistakes  
that I've made along the way  
Well you and I we can't hide  
From the fact that we need each other  
How else will I recover?  
When the fever comes again  
Temperatures rise, temperatures fall  
Will you be my constant through it all?  
I will hold your hand and  
Watch the world spin madly 'round this life, we're  
in  
Everything goes quiet when it's you, I'm with  
Everything goes quiet when it's you, I'm with  
There are no words, no words  
When I'm with you, you  
Every time I hear music  
They're adding more stuff to it  
Things are always moving  
To a futuristic place  
Well you and I, we would try  
We can try and dance until tomorrow  
Well time will have to borrow  
Not a minute's left to waste  
Heart beats rise, heart beats fall  
Will you be my constant through it all?

I will hold your hand and  
Watch the world spin madly 'round this life, we're  
in  
Everything goes quiet when it's you, I'm with  
Everything goes quiet when it's you, I'm with
