## Duck Sauce

Time after time I told myself I've got nothing to lose  
Time after time I told myself I've got nothing to lose  
Time after time I told myself I've got nothing to lose  
Time after time I check just to make sure I can do it anyway that you want it  
I can do it anyway that you want it  
I can do it anyway that you want it  
I can do it anyway that you want it  
Time after time I told myself I've got nothing to lose  
Time after time I told myself I've got nothing to lose  
Time after time I told myself I've got nothing to lose  
Time after time I told myself I've got nothing to lose  
Time after time I check just to make sure  
I can do it anyway that you want it  
I can do it anyway that you want it  
I can do it anyway that you want it  
I can do it anyway that you want it  
Time after time I told myself I've got nothing to lose  
Time after time I told myself I've got nothing to lose  
Time after time I told myself I've got nothing to lose  
Time after time I check just to make sure I can do it anyway that you want it  
I can do it anyway that you want it  
I can do it anyway that you want it  
I can do it anyway that you want it  
I can do it anyway that you want it  
I can do it anyway that you want it  
I can do it anyway that you want it  
I can do it anyway that you want it
