

# Pressure Down

[John Farnham](#)

Set the wheels in motion, and watch them turning round  
I want to sail across the ocean, I've grown weary of this townTake the pressure down  
Cause I can feel it, It's rising like a storm  
Take hold of the wheels and turn them around  
Take the pressure downIn this city full of danger, we lead our separate lives  
And I was frightened by a stranger, with desperation in her eyesTake the pressure down  
Cause I can feel it, it's rising like a storm  
Take hold of the wheels and turn them around  
Take the pressure downSomeone turned the pressure on  
I called your name and you were gone  
And I was trapped like a prisoner in this lonely town  
I'm gonna let things slide, until the pressure comes down  
Oh the winner tells his story, the loser hides in shame  
The winner steals the glory, while the loser takes the painTake the pressure down  
Cause I can feel it, it's rising like a storm  
Take hold of the wheels and turn them around  
Take the pressure downTake the pressure down  
Cause I can feel it, it's rising like a storm  
Take hold of the wheels and turn them around  
Take the pressure downTake the pressure down  
Cause I can feel it, it's rising like a storm  
Take hold of the wheels and turn them around  
Take the pressure down  
Take the pressure down  
Cause I can feel it, it's rising like a storm  
Take hold of the wheels and turn them around  
Take the pressure down
