

That's What I Like (feat. Fitz)

Flo Rida

I said hey, that's what I like, I like about you
The way you do what you do, how you do, I like about you
Come on now, hey, that's what I like, I like about you
The way you do what you do, how you do, I like about you
I said hey, hey, hey, hey They call me Ali Bomaye
Am I yeah the bomb baby?
I go hard, so don't come lazy, come lazy
This is my party, don't be late
And how much fun can one man take?
You walk past and I go crazy
Oh my, my, my, my
Like it, like it, checkmate yeah
I'm movin' up, up, shut 'em all down
I like it, like it, I get bread
I got a tour, a black Ferrari, zoom on it
Hop in, let's get it started
Make my party, you got in
And that's why I said
I said hey, that's what I like, I like about you
The way you do what you do, how you do, I like about you
Come on now, hey, that's what I like, I like about you
The way you do what you do, how you do, I like about you
I said hey, hey, hey, hey My mama ain't raise no fool or no failure
Only go first place, let me upgrade yeah
Olé, red flag I'm waving
Your way, drop down, I'm chasing
Oh my, my, my you look
Look so bad, bad like good
Good times, all the time I'm having
Tonight and I don't mind bragging
Give you one for the treble, I need two for the bass
I spend my three wishes on you, that's just my generous ways
Throw it back like kiss the ray, I work the play
A little harder than the rest, I'm Dr. J
I'm an all time great, you twerk the same like
Oh my, my, my, my
Whoo, ooh, whoo, ooh
Yeah, yeah, yeah, yeah (yeah, yeah, yeah, yeah)
Whoo-o-o, whoo-o-o
Yeah, yeah, yeah, yeah (yeah, yeah, yeah, yeah)
One, two, one, two, three, four I said hey, that's what I like, I like about you (Yeah, that's what I like about you)

The way you do what you do, how you do, I like about you (Yeah, that's what I like about you)
Come on now, hey, that's what I like, I like about you (Yeah, that's what I like about you)
The way you do what you do, how you do, I like about you (Yeah, that's what I like about you)
I said hey, hey, hey, hey
