

Every Shade of Blue (Armand's Ruffneck Mix)

Bananarama

I have the saddest feeling
Deep inside
Don't think that I will hear
From you tonight Now the moon lights up
I know the stars will shine
But I can't escape
The way I feel inside (Chorus)
Every shade of blue I see
When you're away from me
Thinking about you oh oh thinking about you
Every shade of blue I cry
'Til the colours all run dry
When I'm without you oh oh when I'm without you
Alone in the darkness
I can dream of you
But always the daylight
Comes around too soon And the night goes on
Feels like it never ends
I keep holding on
'Til you come back again (Chorus)
And the night goes on
Feels like it never ends
I keep holding on
'Til you come back again (Chorus)
