

# Broke

Joe Budden

We broke like skeletons (it's been a while) loving to the bone  
(We ain't talk, we ain't seen each other)  
Our hearts so delicate, I'm hanging on too long  
(I guess that's how it's supposed to be)  
Nothing left to hide (maybe this is fake) nothing left to show  
We broke like skeletons (maybe we'll never know) loving to the bone I mean we started with  
love, the beginning was magical  
Then it ended abrupt, how's it us that this happened to?  
Was it all just a lie? How was none of it factual?  
Even in our demise, it seems I'm always attached to you  
They said if you let it go, if it's real it comes back to you  
She just called me a thief, I took it, never gave back to you  
After all that I've done, figured you'd have some gratitude  
Look how far we fell off, we can't even be casual  
Guess we both had times we were being irrational  
We both out of our minds, how are we not compatible?  
Say I pushed you out the door, and you did what you had to do  
Now you play the victim like I wasn't impacted too  
Should be a movie star, ma, you so good at acting new  
You like us as strangers, me, I think it's impractical  
But she said that she deserves much better for as long as you fought  
Guess our bond wasn't as strong as I thought  
We'll never know, come on We broke like skeletons, loving to the bone  
Our hearts so delicate, I'm hanging on too long  
Nothing left to hide nothing left to show  
We broke like skeletons, loving to the bone  
Oh, oh, oh, oh, oh  
Oh, oh, oh, oh, oh I mean we started with love, then we ended with hatred  
The whole world in our business, clearly nothing was sacred  
I know you down to your core, unless for years you just faked it  
I know all of your flaws, see your soul when you naked  
Now you got a new squad, all them bitches is basic  
And even if they ain't, it ain't hard to mistake it  
I think you running from love with me, you gotta face it  
Are you guarding your heart from a nigga that always breaks it?  
Now you live in the club, maybe you tryna stay busy  
You still call me every birthday to say that you miss me  
You check to see who I'm with, did anybody come after  
But still talk like you the one, say none of them matter  
I guess it is what it is, what about what it could be?  
Do we try this again just to confirm what it should be  
But she said that she deserves much better for as long as you fought

I guess our bond wasn't as strong as I thought  
We'll never know, come on We broke like skeletons, loving to the bone  
Our hearts so delicate, I'm hanging on too long  
Nothing left to hide nothing left to show  
We broke like skeletons, loving to the bone  
Oh, oh, oh, oh, oooh  
Oh, oh, oh, oh, oooh I'm the one you hide  
The one you can't forget  
And you're the reason why  
I lie awake in bed  
You never felt so open  
I never been so scared to death  
We pushed so hard  
'Til there was nothing left  
Under my skin, gave what I had to give  
We hit the end... We broke like skeletons, loving to the bone  
Our hearts so delicate, I'm hanging on too long  
Nothing left to hide nothing left to show  
We broke like skeletons, loving to the bone  
Oh, oh, oh, oh, oooh  
Oh, oh, oh, oh, oooh
