

Yesterday's Song

Hunter Hayes

I used to sing it,
and I used to crack it with the windows down
I'm used above it
Oh, but I am over it
That I'm over it now
I used to leave it
Playing on repeat
I sprung that record till
It turned on me
The DJ knows exactly what I need
I need album like never before with a new beat
You were the rooftop at the top of my lungs
Blowing the speakers in the back of my trunk
And you had the change then, yeah, but I'm moving on
And now you're just Yesterday's Song, Yesterday's Song!
You were the soundtrack every night in my bed
You were the uh-uuh get stuck in my head
Now you're just an echo when the feeling is gone
Baby, now you're just Yesterday's Song, Yesterday's Song! We had a moment,
There's no more magic in the melody
It's lost and you know it
It's just the sound of we used to be
I used to leave it playing on repeat
I sprung that record till
It turned on me
The DJ knows exactly what I need
A little dancing would be good for me
You were the rooftop at the top of my lungs
Blowing the speakers in the back of my trunk
And you had the change then, yeah, but I'm moving on
And now you're just Yesterday's Song, Yesterday's Song!
You were the soundtrack every night in my bed
You were the uh-uuh get stuck in my head
Now you're just an echo when the feeling is gone
Baby, now you're just Yesterday's Song, Yesterday's Song
