

# I Want Your Love

[Chad Valley](#)

I want your love, if every one had a way to fall.  
I had em stay over so, I thought that I would stay too.  
I wan't your love, I did in even show form.  
You know the place as I know, I'm feeling what I'm dying for.  
To know, you are, its bever really had its start.  
Through fire when it ends I wan't you love, if everyone had a waiting for, I had em stay open  
so, I though that I would stay too.  
I want your love, I did it in even show form.  
You know the place as I know, I'm feeling what I'm dying for.
