

# Wolves

## One Direction

I hear them calling for you  
I hear them calling for you I feel the waves getting started  
It's a rush inside I can't control  
Your eyes keep pulling me in  
I know, I know, I know  
Your friends all talking 'bout me  
They say I got no chance at all  
Your fire is burning deep  
In my soul, my soul, my soul I ain't up for debating  
Ain't enough for the taking  
You got the world shaking  
In the middle of the night when the wolves come out  
Headed straight for your heart like a bullet in the dark  
One by one, I gotta take them down  
But you run and hide, ain't goin' down without a fight  
I hear them calling for you  
I hear them calling  
In the middle of the night when the wolves come out  
Headed straight for your heart  
They come straight for your heart  
I hear them calling for you  
I hear them calling for you I keep on holding tight now  
Cause your body's telling me don't let go  
We're gonna be starting up trouble  
I know, I know, I know  
It's bringing my demons out  
More than ever down  
Your beauty could start a war  
As you walk in the door  
I ain't up for debating  
Ain't enough for the taking  
We got the world shaking In the middle of the night when the wolves come out  
Headed straight for your heart  
Like a bullet in the dark  
One by one, I gotta take them down  
But you run and hide, ain't goin' down without a fight  
I hear them calling for you  
I hear them calling  
In the middle of the night when the wolves come out  
Headed straight for your heart  
They come straight for your heart  
I hear them calling for you

I hear them calling for you I wish it wasn't true  
But the whole world's tryna get a piece of you  
And my heart keeps fighting in this battle of fools  
Gotta make it through, gotta make it through In the middle of the night when the wolves come  
out

Headed straight for your heart  
Like a bullet in the dark  
One by one, I try to take them down  
But you run and hide, ain't going down without a fight  
I hear them calling for you  
I hear them calling  
In the middle of the night when the wolves come out  
Headed straight for your heart  
They come straight for your heart  
I hear them calling for you  
I hear them calling for you
