## If It's In My Mind, It's On My Face

## **Seal**

Ahhhhh ahhh ahhhhlf you can't find your place in this world, your life means something to me Feels like every Monday's just a day in the week If you're lonely, and it seems like reaching up Might break you down, don't go underIf I could fly, I'd spread my wings In time to free you from these foolish things And we won't be back for sure If it's in my mind, it's on my face Wish I could take you to a better place But we just might miss your callNo one knows your face in the world Maybe that's your reason to leave I think you might be someone that I came to see You're real, if you feel like waking up then come around Do you wonder? If I could fly, I'd spread my wings In time to free you from these foolish things And we won't be back for sure If it's in my mind, it's on my face Wish I could take you to another place But we just might miss your call'Cause we live in the world We live in the world We live in the world We're free in this worldI have made mistakes I've wasted life And I've been down you see Why are the friends I have could not make time for me? I have lost my face I've broken ground I've been around you know Follow the loudest voice that waits inside, the time is now If I could fly, I'd spread my wings In time to free you from these foolish things And we won't be back for sure If it's in my mind, it's on my face Wish I could take you to better place And we just might miss your callIf you can't find your place in this world, Your life means something to me Feels like every Monday's just a day in the week If you're lonely, and it seems like reaching up
