

U.S. Stronger

Florida Georgia Line

Yeah, there's sure been days that I thought we'd never make it through
But we found a way, and I'm proud to say it's nothin' new
Yeah, it's in our blood, it's the way we'll always be
And it's all because we were raised in the land of the free
When we fall down, we get back up
We shake it off when things get tough
We hit our knees and pray for help
'Cause we ain't ever by ourselves
We lean on love and love to lean on one another
'Cause what don't take us, bend us, break us makes us stronger
We've learned to fight and earned the right to fly the red, the white, the blue
Through all the storms as heroes born a lot like me and you
When we fall down, we get back up
We shake it off when things get tough
We hit our knees and pray for help
'Cause we ain't ever by ourselves
We lean on love and love to lean on one another
'Cause what don't take us, bend us, break us makes us stronger
We're still one nation under God
We go through hell, we learn a lot
We stand, we work for what we got
And thankful as can be
When we fall down, we get back up
We shake it off when things get tough
We hit our knees and pray for help
'Cause we ain't ever by ourselves
We lean on love and love to lean on one another (Lean on one another)
'Cause what don't take us, bend us, break us makes us stronger
'Cause what don't take us, bend us, break us makes us stronger
