

# Far Away (feat. Brooke Adee)

MattyB

Oh, every time you come around me  
Every time you come around me  
Oh, every time you come around  
Stay far away, stay far away I met a bad chick  
She was flawless from head to toe  
I never would of imagined that she would do me low  
With her mad tricks  
Playing games stacking the cards  
Hiding her inner monster then stabbing me in the heart  
I'm a maverick  
But this woman's like an outlaw  
Good will overcome evil and she's about to get outdrawn  
One of the greatest stories ever been told  
The summer was scorching hot  
But the winter was frigid cold  
Did you think that you could play me  
Well I'm not playing anymore Oh, every time you come around me  
Every time you come around me  
Oh, every time you come around  
Stay far away, stay far away Oh, every time you come around me  
Every time you come around me  
Oh, every time you come around  
Stay far away, stay far away  
Lying, stalking my messages, trying to clip my wings  
These are just a few of her favorite things  
Setting me up, building me high to let me fall  
Tell me where all you've been today  
Who is it that you've called  
Why don't you ever talk to me  
Look what you put me through  
(nagging)  
Look what you made me do!  
Enough is enough  
call it off, over, we're through  
I've had so much of your crazy  
But I'm not going to go crazy too Did you think that you could play me  
Well I'm not playing anymore Oh, every time you come around me  
Every time you come around me  
Oh, every time you come around  
Stay far away, stay far away Oh, every time you come around me  
Every time you come around me  
Oh, every time you come around

Stay far away, stay far awayCause I don't want you near me  
I don't want you near me  
Oh, I don't want you near me  
Go away stay far awayCause I don't want you near me  
I don't want you near me  
Oh, I don't want you near me  
Go away stay far awayOh, every time you come around me  
Every time you come around me  
Oh, every time you come around  
Stay far away, stay far awayOh, every time you come around me  
Every time you come around me  
Oh, every time you come around  
Stay far away, stay far away
