

# Root Beer Float (feat. Blackbear)

Olivia O'Brien

I've been thinking, thinking it over.  
I've been wishing that I was so burn.  
Maybe later you can come over and we can make a root beer float.  
I've been rolling, rolling with papers.  
Wanna get high to see you later.  
Pour some whiskey, i'm feeling frisky.  
We should make a root beer float.  
I just hit that root beer float.  
Float float.that root beer float.  
...root beer float...  
...I just want a root beer float.  
Pick my friends up, no destination.  
Drive in circles I got no shame with it.  
Stop at the drive-in, my cliqué is wild and we all got a root beer float!  
Alright...  
I've been cooling  
I had to switch up,  
my bag is italian,  
my top is thrift shop.  
No Maklemore no Ryan Lewis, you know I had to do it. I just hit that root beer float.  
I just hit that root beer float.  
...That root beer float  
I can't  
...Root beer float  
I just hit that root beer float.  
(BlackBear)  
Yeah  
I remember every summer when we was younger, I would steal my parents' bar cup fill it back  
with water.  
Meet up with my homies at the??? reminiscing before I rock that Gucci Saint Laurent and???  
Let me get your number and my??? girl  
Maybe get a kingsize out the window, i've been waiting. Root beer float and whiskey for the  
first time we have???  
I just hit that root beer, I just hit that root beer float.  
...Root beer float  
I just hit that root beer float...  
Floooattt. Root beer float float. I just hit that root beer. You know I had to do it. I just hit that  
root beer. No Maklemore no Ryan Lewis.hit that root beer.  
I-I just hit that root beer.  
I just hit that root beer.  
Maybe later, you can come over and we can make a root beer float!
