

Adriana

Headstrong

adriana you never saw it coming
no time to think, much less react to the knife in your back then go burn a hole in the world, start
walking

i'll be the one when i'm done double talking to you take a second now, and take the rest of your
life

what's integrity when you can ooze on through to the other side? take a second now, and take
the rest of your life

what's integrity when you can ooze on through to the other side?

if i put my mind to it i can figure it out

if i put my mind to it i can figure it out, if i put my mind to it i can figure it out

if i put my mind to it i can figure it out,

...

swarmed without end, how can you even pretend? i'll stay you go. outside that i just don't know'

I don't know' go burn a hole in the world start walking

i'll be the one when i'm done double talking to you

take a second now, take the rest of your life

what's integrity when you can ooze on through to the other side? take a second now, take the
rest of your life

what's integrity when you can ooze on through to the other side?

if i put my mind to it i can figure it out

if i put my mind to it i can figure it out'

if i put my mind to it i can figure it out

if i put my mind to it i can figure it out'...

everyone stop screaming

just wrap your teeth around me

and hold me to this line

these scars are ours for all time

...

take a second now, take the rest of your life

what's integrity when you can ooze on through to the other side?

take a second now, take the rest of your life

what's integrity when you can ooze on through to the other side?

if i put my mind to it i can figure it out

if i put my mind to it i can figure it out'

if i put my mind to it i can figure it out

if i put my mind to it i can figure it out'

if i put my mind to it i can figure it out

if i put my mind to it i can figure it out'

if i put my mind to it i can figure it out

if i put my mind to it i can figure it out'

...
