

# Wait Til You See My Smile

[Alicia Keys](#)

When the wind is blowing in your face  
Sometimes in life you don't see straight  
Wait for him  
He will show When your head is in a certain place  
Nobody around to make you say  
Stand strong and you will go Wait till you see my smile  
Wait till they see your smile Don't they love to see you down  
Kick you while you are on the ground  
Don't let emotions show People always make you late  
Don't let them get in your way  
See they say things they don't know Wait till you see my smile  
Wait till they see your smile  
Hey  
So you doing better now  
Everybody comes around  
Cause you don't really need much  
You are stronger and your better and you are ready for whatever  
Saying  
Wait till you see my smile  
Wait till they see your smile  
Wait till you see my smile  
Wait till they see your smile
