

Down with Ya (feat. Madcon)

Sweet California

Madcon, Sweet California
I got to know ya for some time
So now it's real and you're all mine
Come a little closer
Got a few things I could show ya
I don't wanna wait no more, hey
Not getting younger anytime
I really wish you weren't so fine
'Cuz every time I close my eyes
You appear all the time
Stop playing with my mind
Really, really wanna get Down with ya
I really, really wanna get Down with ya
Wanna go up down, up down with ya
Wanna go all 'round, right round with ya
'Cuz ooh baby, ooh baby what I found in ya
Is somethin' so special, I want all of ya
I really, really wanna get down with ya
Oh baby, oh baby I'm in love with ya
Now I really, really wanna get down
Really, really wanna get down
Really, really wanna get down
I gave you mine you gave me yours
Swapped our hearts out way before
Before I ever thought of this
I wanna feel your fingertips
Take me down, down to the floor
Really, really wanna get Down with ya
I really, really wanna get Down with ya
Wanna go up down, up down with ya
Wanna go all 'round, right round with ya
'Cuz ooh baby, ooh baby what I found in ya
Is somethin' so special, I want all of ya
I really, really wanna get down with ya
Oh baby, oh baby I'm in love with ya
Now I really, really wanna get down
Really, really wanna get down
Really, really wanna get down
Let me see you drop
Let me see it pop, let me see you get up outcha spot
Let me see you rock, drink a body shot
Pour the liquor down your leg'n have it dripping
Down your toes here we go, full speed ahead coming down the pole
I know you're a man eater
But you still hot like a bad fever
Twelve years of school

It's crazy I can't read ya
All I know's a Leo's supposed to go with a Libra girl
Let go, I'm feeling exposed
Like I'm chasing your rear and feel the exhaust
I ain't a quitter, I grind and you're my next goal
Uncut carat, a dime you know that sex's gold
Really, really wanna get Down with ya
I really, really wanna get Down with ya
Wanna go up down, up down with ya
Wanna go all 'round, right round with ya
'Cuz ooh baby, ooh baby what I found in ya
Is somethin' so special, I want all of ya
I really, really wanna get down with ya
Oh baby, oh baby I'm in love with ya
Now I really, really wanna get down
I really, really wanna get down
I really, really wanna get down
