

# Grinding All My Life

## Nipsey Hussle

All my life, been grindin' all my life  
Sacrificed, hustled, paid the price  
Want a slice, I could roll the dice  
That's why, all my life, I been grindin' all my life  
All my life, been grindin' all my life  
Sacrificed, hustled, paid the price  
Want a slice, I could roll the dice  
That's why, all my life, I been grindin' all my life Look, I'm married to this game, that's who I  
made my wife  
Said I'll die alone, I told that bitch she prolly right  
One thing that's for sure, not a stranger to this life  
Got a safe that's full of Franklins and a shoulder full of stripes  
I don't know a nigga like myself  
I say self made, meanin' I designed myself  
County jail failed, you can pull my file yourself  
Bar raised, swallow rocks, I'm gettin' high myself  
Damn right, I like the life I built  
I'm from west side, 60, shit, I might got killed  
Standin' so tall, they think I might got stilts  
Legendary baller, like Mike, like Wilt  
'96 Impala thug, life on wheels  
Up against the walls, squabble at Fox Hills  
Like a motherfuckin' boss, ask me how I feel  
Successful street nigga touchin' his first mil  
All my life, been grindin' all my life  
Sacrificed, hustled, paid the price  
Want a slice, I could roll the dice  
That's why, all my life, I been grindin' all my life  
All my life, been grindin' all my life  
Sacrificed, hustled, paid the price  
Want a slice, I could roll the dice  
That's why, all my life, I been grindin' all my life Look, I got everythin' I said I was gon' get on  
my kid  
In addition to that fact, I went legit on that shit  
Now accordin' to the way that I'm positioned in this biz  
It look like I'm just gon' keep on gettin' rich  
I know that west side, RSC's is us  
LAPD on my dick, I'ma squeeze and bust  
If a rap nigga dead, switch cheese and bust  
All this rap money, nigga, look I need too much  
Money, loyalty and love, in the dream we trust  
You be switchin' up the players on your team too much

Tiny copy, that's my loc, yo supreme, what up  
And we travel round the world gettin' cream and what  
Ain't you get off on whoever hustle, seem to rush  
Las Vegas, strip pop, yeah, you creep them punks  
After all that lookin' tough, all he see was stumps  
50 Cent and Mayweather flee the scene with us, true story  
All my life, been grindin' all my life  
Sacrificed, hustled, paid the price  
Want a slice, I could roll the dice  
That's why, all my life, I been grindin' all my life  
All my life, been grindin' all my life  
Sacrificed, hustled, paid the price  
Want a slice, I could roll the dice  
That's why, all my life, I been grindin' all my life  
All my life, been grindin' all my life  
Sacrificed, hustled, paid the price  
Want a slice, I could roll the dice  
That's why, all my life, I been grindin' all my life  
All my life, been grindin' all my life  
Sacrificed, hustled, paid the price  
Want a slice, I could roll the dice  
That's why, all my life, I been grindin' all my life  
All my life, been grindin' all my life  
Sacrificed, hustled, paid the price  
Want a slice, I could roll the dice  
That's why, all my life, I been grindin' all my life  
All my life, been grindin' all my life  
Sacrificed, hustled, paid the price  
Want a slice, I could roll the dice  
That's why, all my life, I been grindin' all my life
