

On My Way

Jain

I am on my way
I am on my way
I am on my way
I am on my way I am on my way
I am on my way
I am on my way
On my way to reach you, babe Give me what you want, tell me how you feel,
Stop running away from me
Give me what you want, tell me how you feel,
I am not the one you think Stand back freeze,
Look at me good now
I'm not a fool
Stand back freeze,
Look at me good now
I'm not a fool Stand back or you gonna have to fight
I'm not giving my love,
To someone that I don't trust
Stand back or you gonna have to fight
I'm not giving my soul
Unless you're giving me yours I am on my way
I am on my way
I am on my way
I am on my way I am on my way
I am on my way
I am on my way
On my way to reach you, babe
Give away your fears, tell me how you feel
I don't want any of your tears
Give away your fears
They don't mean a thing
I am not the one you think Stand back freeze,
Look at me good now
I'm not a fool Stand back freeze,
Look at me good now
I'm not a fool Stand back, don't leave me in the dark
If you're feeling the light, then come around by my side
Stand back, don't leave me in the dark
If you don't feel alright
Then come around by my side I am on my way
I am on my way
I am on my way
I am on my way I am on my way

I am on my way
I am on my way
On my way to reach you, babe I am on my way
I am on my way
I am on my way
I am on my way I am on my way
I am on my way
I am on my way
I am on my way
