

Sugar Mama

Taste

Right, right
Girl, I know what you're thinking
You need some answers in your heart tonight
Girl, I'm here, let's make it different
Ease the pressure, sweeten up your life
Gonna let your hair down
Gonna let your guard down
Gonna let me show you
Everything you've been missing
Gonna let it all go
Girl, you gotta let it flow
Don't let the door close
I know what can get you better
You need some sugar
You're only human, baby
Let me bring it on to you tonight
I'll be your sugar
I'm gonna make it easy
Smooth it out and make you feel so right
Right, right
Girl, love doesn't have to be
A bitter pill for you time and again
Girl, girl, take a look at the big picture
There's a new start here in my hand
Let you hair down
Let your guard down
Let me show you
Everything you've been missing
Let it all go
Girl, ya gotta let it flow
Don't let the door close
I know we can get you there
You need some sugar
You're only human, baby
But let me bring in on to you tonight
I'll be your sugar
I'm gonna make it easy
Smooth it out and make you feel so right
You need some sugar
You're only human, baby
But let me bring in on to you tonight
I'll be your sugar

I'm gonna make it easy
Smooth it out and make you feel so right
Going through it, I come to you
Just a kiss is good for you
I'm not leavin', you this way
That's why you hear me say
You need some sugar
Your only human, baby
But let me bring in on to you tonight
I'll be your sugar
I'm gonna make it easy
Smooth it out and make you feel so right
You need some sugar
You're only human, baby
But let me bring in on to you tonight
I'll be your sugar
I'm gonna make it easy
Smooth it out and make you feel so right
