## Tomahawk

Flashback  
The dolls, the hide and seek  
We dreamed of better things  
In the tall weeds  
I rolled with youFlashback (flashback)  
Silhouette of the memory  
Your eyes are getting heavy  
And when I speak  
You sleep on cue  
Three, two, oneDid they make you wear a dress, did they?  
Held you down and tickled you, did they?  
Did they laugh and make you watch, did they?  
They wish they had a little girly!  
Come closer take a look inside...  
Flashback  
Blueprints have been erased  
Matchbooks, butterflies, mornings  
The grass was wet  
I rolled with youFlashback (flashback)  
Tentacles of my spirit grow  
Sit back, relax and hope  
The second time ain't like the firstI'm a schoolboy, why don't you teach me?  
Bend over and we'll hush the squealing  
Put on the mask and dance for daddy  
Wait for the world to say it's sorry  
You show me yours, I'll show you mine  
Flashback  
Flashback...Listen to the song my blood is singing  
Listen to the song my blood is driving, driving, driving, driving at you
