

# Beautiful (feat. Mario)

Alex Gaudino

Do you remember how we used to kiss in the rain  
I thought that would never be the same  
When we found ourselves rulling aroundSo tonight you and I running through the lines  
We ignite like the fight never die  
Turn me on, leave me on, let me be the one  
I know you just like that oh myYou're beautiful  
You're beautiful  
You're beautiful  
You're beautiful  
You're beautiful  
When I left you, I thought I never did endure the pain  
So that my heart will never beat together  
Pick me up, then keep throwing me down, downSo tonight you and I running through the lines  
We ignite like the fight never die  
Turn me on, leave me on, let me be the one  
I know you just like that oh myYou're beautiful  
You're beautiful  
You're beautiful  
You're beautiful  
You're beautifulYou're beautiful  
You're beautiful  
You're beautiful  
You're beautiful  
You're beautiful  
It's like the time moves slow  
And when I let you know  
Take my hand I'll fly  
Into your heart, into your heart  
And you could be mine  
You could be mine x6You're beautiful  
You're beautiful  
You're beautiful  
You're beautiful  
You're beautifulYou're beautiful  
You're beautiful  
You're beautiful  
You're beautiful  
You're beautiful
