

This Is Your Life

[Robin Schulz](#)

This is your life And this is your life and this is your love
And this is a time we're gonna rise above
There's no place like home
That place in your soul
That's where we begun and where we all will go Churn your heartstrings 'til the bell rings
Take it all in, everything you got to see
Shake it all out, break it all down
Scream it out from rooftops all around the world
And this is your life and this is your love
And this is a time we're gonna rise above
There's no place like home
That place in your soul
That's where we begun and where we all will go
And this is your life
And this is your love And this is your life and this is your love
And this is a time we're gonna rise above
There's no place like home
That place in your soul
That's where we begun and where we all will go Churn your heartstrings 'til the bell rings
Take it all in, everything you got to see
Shake it all out, break it all down
Scream it out from rooftops all around the world
And this is your life and this is your love
And this is a time we're gonna rise above
There's no place like home
That place in your soul
That's where we begun and where we all will go And this is your life
