

# So the Story Goes

## Living In a Box

Empty rooms without a view  
And empty space to see it through  
Blow by blow my first mistake  
Fast hearts begin to make You never said that you'd change your mind  
Never said you could  
You never said that you'd need me back  
If it's love you want  
Let the feeling go  
Follow your heart  
So the story goes  
If there's time for us  
Maybe heaven knows  
Love will return  
So the story goes  
I love you  
Moving clouds, fading grey  
Slide through, another day  
Passion runs, where passion kills  
Clouding up, those diamond towns You never said that you'd change your mind  
Never said you could  
You never said that you'd need me back  
If it's love you want  
Let the feeling go  
Follow your heart  
So the story goes  
If there's time for us  
Maybe heaven knows  
Love will return  
So the story goes  
I love you So the story goes  
You never said that you'd change your mind  
Never said you could  
You never said that you'd need me back  
If it's love you want  
Let the feeling go  
Follow your heart  
So the story goes  
If there's time for us  
Maybe heaven knows  
Love will return  
So the story goes  
I love you If it's love you want

Let the feeling go  
Follow your heart  
So the story goes  
If there's time for us  
Maybe heaven knows  
Love will return  
So the story goes  
I love you If it's love you want  
Let the feeling go  
That's how the story goes If it's love you want  
Let the feeling go  
That's how the story goes If it's love you want  
Let the feeling go  
That's how the story goes If it's love you want  
Let the feeling go  
That's how the story goes If it's love you want  
Let the feeling go  
How the story goes If it's love you want  
Let the feeling go  
How the story goes If it's love you want  
Let the feeling go  
If it's love you want
